for diverse applications

Every day around the world, countless industrial rubber hoses and hose lines are used for conducting or extracting liquid, gaseous or solid substances. There are no general rules of thumb for selecting them. They are chosen individually based on the information provided by our customers. As versatile as hoses and their applications are, their connecting parts are just as universal.

Our comprehensive delivery range has the right hose and fittings for almost every area of application at the ready.

- [Push-Lock hoses](#)
- [Tempering hoses](#)

- [Paint spraying hoses](#)
- [Cooling water hoses](#)
- [Shot blast hoses](#)
- [Heavy duty oil and fuel delivery hoses](#), and much more

Materials: all conventional elastomers such as EPDM, NBR, SBR and much more.

The right connection - hose and fitting

We can provide you with a suitable hose line upon request. Connecting both components – hose and fitting – into a functional complete line is our strength.
