

[Home](#) / [Sectors](#) / [Mechanical and plant engineering](#)

Various standards exist for the wide range of applications in mechanical and plant engineering. Hilgendorf sees itself as a developmental partner for technical products made of rubber and plastic. In close cooperation with our customers, qualified employees and suppliers, we create an individualised and practical solution for you.

Our core area of business:

- Application-specific consultation and product development
- Material-specific construction for rubber and parts made of plastic
- Creating added value for our customers

Please get in touch with us. We will be happy to advise you.

Selection of our delivery range:

- [Moulded rubber parts](#)
