

[Home](#) / [Standard products](#) / [Plastic hoses and -tubes](#)

A wide selection of plastic hoses and -tubes are available for various media and applications. If the suitable hose is not available in our standard range, we will analyse your actual use case and we describe the most logical solution to you.

See for yourself that our products are superbly suited to conducting and extracting a diverse range of media and learn more about the strengths of our products from the following fields:

- [Self-fastening polyurethane hoses, type for AUTOMOBILES](#)
- [PA tubes](#)
- [PA feed tubes](#)
- [High-temperature suction hoses](#)
- [Plastic tube, resistant to welding spatter](#)
- [PVC fabric hoses](#) and much more

Materials: all traditional thermoplastics such as PU, PE, PA, PTFE, PVC and much more.

The right connection - hose and fitting

We can provide you with a suitable hose line upon request. Connecting both components of the hose and the fitting into a functional complete line is our strength.
