

[Home](#) / [Sectors](#) / [Railway industry](#)

---

Our cooperation with the railway industry extending over decades has helped us develop into a specialist in this branch.

With our comprehensive knowledge regarding the standards for products made of rubber and plastic, we are able to offer you any possible supplier part made from rubber and plastic from a single source – from application-specific consultation to C-Parts management.

Even the high fire protection standards in accordance with EN 45545-2:2013, DIN 5510-2 or NF F16 101 can be fulfilled with the following materials:

- Elastomers: EPDM, silicone, TPE
- Plastics: PA, PE, PC
- Cellular materials: HH25, HH EZ, O.C.-Form 150, silicone foam
- Insulation materials: Cotton fabric laminates, RKE-AF

We will be happy to support you throughout the entire process – from your concept through to duplicate parts for:

- [Sealing and edge guard profiles made of rubber](#) (also in silicone)
- [Moulded rubber parts](#)
- [Plastic profiles](#)
- [Moulded plastic parts](#)
- [Cooling water hoses](#)
- [Turned and milled parts of plastic](#)
- [Rubber-to-metal-bonded parts](#)
- [Non-metallic stamped parts \(seals / cutouts\)](#)

- Insulation and sealing materials such as [RKE-AF](#), [foam HH25](#)
