

[Home](#) / [Standard products](#) / [Semi-finished plastic products](#)

Semi-finished products made of plastic serve as preliminary material for mechanically processed components or wear plates and protective plates.

In our range of products, you can find both plates and round rods made of plastic of which we keep a selection of standard formats.

A suitable finished part solution can be obtained from these as needed. We advise you individually and without bias for a certain material based on your application-specific requirements.

Depending on the application, we offer the following range of material types:

PA 6, PA 6 G, PA 6.6, PA 12, POM, PE, PE 1000, PP, PPS, PVC, PC, PET, PMMA, PEEK, PVDF, PTFE and much more.

Plate thicknesses: 1 - 50 mm

Round rods: Ø 3 - Ø 200 mm
