

[Home](#) / [Custom-made products](#) / [Thermoformed plastic parts](#)

**For robots and handling machines,
storage and transport of parts:**

Tailor-made solutions are designed in close cooperation with the customer.

Plastic parts and blister packs made using thermoforming both manufactured on a completely individualised basis and in accordance with your requirements and requests can be made by us.

The plastic material is fed into the machine as a film. There, it is first warmed and then brought into the desired shape with compressed air, vacuum power or mechanically.

Available materials:

- ABS
- PP
- PS oder
- PVC
